

PRISMO

brushed white⁺

Innovation
Made in Germany

RHEINZINK – For almost 50 years, we have stood for pioneering thinking in the industry and Made in Germany. From the very beginning, our particularly durable, timeless beautiful material and innovative manufacturing processes make RHEINZINK titanium zinc the ideal solution for every building project.

After many years of research and development, we are now proud to be able to launch a new product on the market. With RHEINZINK-PRISMO brushed white⁺, we are introducing an innovative material surface with an elegant whitish finish that still retains the natural touch that has always characterised RHEINZINK.

The characteristic appearance of the surface creates an aesthetic that can be integrated into any design concept. In addition, the material offers reliable protection against the challenges of climatic and environmental influences, ensuring durability and low maintenance.

PRISMO brushed white⁺ combines innovation and durability in an extraordinary look that is both modern and timeless.

Andreas Friedrich, Research & Development at RHEINZINK

INNOVATION MADE IN GERMANY.

**With a technology
that sets standards.**

DURABILITY FOR A LIFETIME.

**PRISMO brushed white⁺ is characterised
by low maintenance and durability.**

FEATURES TO MARVEL.

**The brushed, light-coloured finish
creates an extraordinary look.**

PRISMO brushed white⁺ is a new, innovative material surface that stands out from other building materials thanks to its unique appearance. The brushed, light-coloured finish gives the naturalness of the material a high-quality look. The originally shiny areas develop a natural patina over time that adds to the characteristic appearance.

An innovation Made in Germany: The material's surface is extremely resistant when it comes to environmental influences. It can withstand climatic conditions and thus minimises the maintenance effort. The durable titanium zinc also gives every project a characteristic appearance.

There is a wide range of possible applications for the new RHEINZINK surface. With its timeless beautiful aesthetics, PRISMO brushed white⁺ blends perfectly into any building project and offers a wide range of options for combination with other materials. For a customised design that makes a lasting impression.
